Dear Mr Finnerty

Following our phone call, I have been working on connecting you with someone who might be able to help you. Unfortunately, we as the Constituency Office for an MLA would not be able to provide the level of legal support you would require.

I have though placed a call with the Law Centre which specialises in advice on a range of issues not least benefits. I explained your case and was advised that this appears to be something they could advise you on. I have been assured that an advisor from the Law Centre will contact you directly.

We have used the advice services of the Law Centre on a number of occasions and have found them to be very informed and responsive. I hope they can help you with your case.

With all best wishes,

Hedley
