

(36) William Finnerty

ARE YOU BEING BULLIED BY YOUR GOVERNMENT?

"You might think that the answer should be obvious, and it sometimes is, but some people are bullied for years without actually realising it. Many can see that they are being treated unfairly, but not all can put the nature of the unfairness into words. Some blame themselves for it. A common feature of psychological bullying is to make the target feel useless, guilty and to blame for their predicament, when they are not. How is someone to tell if they're being bullied, or the useless idiot they're made to feel like?"

"We say that Bullying is conduct that cannot be objectively justified by a reasonable code of conduct, and whose likely or actual cumulative effect is to threaten, undermine, constrain, humiliate or harm another person or their property, reputation, self-esteem, self-confidence or ability to perform."...[See more](#)

'I would also like to take this opportunity to point out to you and your HSE (Health Service Executive) colleagues that the years of "government bullying" (as I have come to see it) which I continue to be subjected to, all stem from the fact that in 1998 I tried to prevent a "Super Dump for the whole of Connacht" from being located close to the world famous Turoe Stone (and virtually on top of part of the nearby 10,000 or so year old and very historic Esker Riada Roadway which divides the Island of Ireland into two halves roughly).'

'Additional information on the Turoe Stone, considered by many well-informed people to be the most important piece of ancient Celtic Stone Art in the world, and located just a few miles from the Loughrea Day Hospital you work at, can be viewed at:

http://homepage.eircom.net/~willi.../protest/nov21_stone.htm '

'Additional information on the Esker Riada can be found at:

<http://homepage.eircom.net/.../chaplefin.../esker/riada1.htm> '

"It appears that in the case of the Turoe Stone the pre-Christian Celts raised the strength, sophistication, and complexity of their spiritual abstractions and symbolism to the highest level that they ever used in their stone art; and, in so doing, they may (in a way similar to the later situation regarding the Book of Kells), have given to the world one of the finest examples of abstract stone art ever produced. Of all the decorated stones created by the pre-Christian Celts, the Turoe Stone is by far the best known in the world."
